“Ayni Karpay”

Andean Initiation of Reciprocity

A **meeting** with the past in the **eternal present**, with the spirit of the desert, the ancestral wind and the wind of the Andes, to greet new ties of reciprocity, weaving bonds of love with our cosmic mother **Pachamama**, cleansing the soul and the heart, and embracing the present with faith in a new humanity we are all creating together.

“Ayni Karpay”

In the Inka Andean tradition, **Ayni** is the primary metaphysical factor in **energetic** evolution. Known as **Reciprocity**, it is the law of attraction in the Andes. In spiritual initiatory training, it is the first bond we establish with the living energy or **Kawsay Pacha**.

What to expect on this journey?

In this **Sahara Desert Journey**, we will integrate with the **wisdom** of the place, listening to its voice and messages through the **wind, sand, sun**, and our own energies, to open the door to **Ayni**. **We will offer our innate energy or Sami to strengthen new bonds of love and respect, leaving and receiving energy** in our spirit and in the altars we will build during this Ayni Karpay.

Facilitator:

Pepe Ramos, Paqo Pampamisa of the Inka **Andean tradition**, **Q'eros - Turpo lineage**. Meraya healer in the **Shipibo Conibo** tradition, facilitator of Andean initiatory journeys, Inka Hatun Karpay, and teacher in Inka Andean cosmovision (Kawsay Pacha). Hypnotherapist. Cusco - Peru.

The Berber people are the oldest race in North Africa and cradle of human origin. Their culture, called **Imazighen**, meaning "**free man**", holds ancient wisdom deeply connected to Mother Earth. Their knowledge of medicinal herbs and agriculture is remarkable. During our stay, we will learn about their traditions, crafts, cuisine, colorful clothing, makeup, tattoos, music, and dance, and experience being part of their family.

In the final days, we will spend a night at the **"BERBER OASIS" exclusive for our group**. There, we will conduct activities connected to the natural surroundings, under the star-filled sky. We will meditate and connect with sunrises and sunsets to remember the flow of life-birth and death.
